Berdasarkan Kajian Hosei Univiersiti, projek yang memenuhi CASBEE meyumbang 75% (secara terus dan tidak terus) dalam mencapai SDGs.

Main results

- ◆ More than 75% of assessment items correspond to SDGs

CASBEE® SUSTAINABLE DEVELOPMENT GOALS

Common part: About 75% or more

⇒ CASBEE is a tool that corresponds to the SDGs

- ◆ As the scale of assessment items become larger,
the number of goals directly contribute to the achievement increases

SDGs (Sustainable Development Goals) (2015.9)

⇒ Improvement of environmental quality ,Q

Paris Agreement

⇒ Reduction of environmental load ,L
(Emission of CO₂)

⇒ Q and L are the two major factors of
environmental planning

**CASBEE is in line with
global policy issues for
a sustainable society**
